WHOOPIING COUGH.

A woman who has had experience with this disease, tells how to prevent any dangerous consequence from it. She says: Our three children took whooping cough last Summer, our baby boy being only three months old, and owing to our giving them Chamberlain's Cough Remedy, they lost none of their plumpness and came out in much better health than other children whose parents did not use this remedy. Our eldest little girl would call lustily for cough syrup between whoops. —JENNIE PINKNEY HALL, Springfield, Ala. This remedy is for sale by Craig & Hooker, Droghda.

The highest of all navigable rivers is the Yangtze, which flows for nearly 1,000 miles at an elevation of from 11,000 to 14,000 feet.

Hon. F. P. Combust on His Trip South.

MCKINNEY, TEN., April 27.—The J. editor and some of his readers will be surprised to hear of me attending the reunion of the old Confederates at Dallas. I have been traveling around in the Lone Star State for 10 days and visited various towns and have seen legions of old Kentuckians; among them John Goode, now in the livery business, and Thos. Jasper, a "bloated banker" at Plano. Goode is doing well and Jasper is making lots of money in the banking business. \$50,000 capital and \$30,000 surplus and 10 per cent. dividend and paid a loss of \$19,000 that the bank was robbed of, in 15 years, is certainly a bonanza.

At McKinney, John Page, formerly county attorney of Casey, has gotten rich in the real estate business and practicing law. R. N. Adams, superintendent of the Fux Grocery Co., and brother of our Charley and Beecher Adams and brother-in-law of J. P. Goode, of Hustonville, has a fine trade and is located right at the depot. There are quite a number of Kentucky people in McKinney, most of them from Adair county, the Dehonys, Massies, etc.

At Valdosta there is another colony of Kentuckians, with J. W. Combust the king bee. He has about 3,000 acres of black waxen land worth \$50 per acre and a big store and cotton gin and a ranch of jacks and jennets that he purchased of J. K. Baughman and others two years ago. Most of this colony is made up of Russell and Pulaski county people. I will not give a list of them now. Well, at Anna Texas, there is a colony of Caseyites among them, C. C. Riggs and boys, Z. T. Shaw, and boys, Aaron Terrill and Ben Combust, Jas Shaw, Ike Shaw, Jo Sams, Charles Craves, Austin Smith, Henry Cudiff, Heck Arnold and lots of others. They are all well satisfied and have fine prospects this season.

Corn looks fine—from ankle to knee high. Wheat and oats look well. Wheat is heading in fine shape. Some have commenced chopping cotton, which is the big crop here. Everything looks flourishing and the weather warm and fine.

I had forgotten to mention my brother, Dr. D. C. Combust, at Prosper, on the Frisco railroad, between Sherman and Fort Worth, a new town and railroad. He is pleased with his new town, which is three months old and growing rapidly and in a fine valley of land as there is in Texas. He owns about 500 acres of the black wax.

We started from Junction City on the Q. & C. through the tunnels over the trestles, along the C. S. to Chattanooga; thence to New Orleans over the Alabama, Great Southern, Crossed Lake Pontchartrain, 22 miles, just before reaching N. O. Crossed the Mississippi on boat, thence through the rice fields of Louisiana to Beaumont, Texas, where the oil fields rival James Fry's Knox county wells, and W. M. Myers, Dr. Barker and Gill Cowan's Wayne county pushers. I think the Casey Oil Company might do well to bore one of their prospective wells at Beaumont, as they would be as likely to find oil here as in Casey.

The Confederate reunion was a success so far as the crowd was concerned. It seemed that all roads led to Dallas, which is a fine city and in a beautiful country. The city was packed with people from all quarters, like sardines in a box, but there was lots to eat on every corner and liquid refreshments as plentiful. There were about 1,000 tents stretched on the fair grounds and the old boys in gray enjoyed themselves and thought they could whip the rest of the world. One old general remarked that he would not have surrendered till yet had he known there were so many of them left.

F. P. COMBUST.

Almost a Tragedy.

Early this morning a great crowd gathered at the L. & N. depot. Their horrified gaze was fixed on what seemed to be the body of a well-dressed colored man suspended in mid-air across the wires of the Stanford Telephone Company. Everybody was offering suggestions, but fear was uppermost in the hearts of the spectators, not one having the requisite nerve to relieve the unfortunate on the deadly wires. Happily Mr. Jones arrived on the scene, and he soon had some of the attaches of the railroad ascend the poles and remove the supposed corpse to terra firma. Blinded faces soon assumed their natural aspect when it was discovered that the cause of the commotion was a dummy used in front of one of the leading clothing stores. On the breast of the coat was a placard stating that Sol's & Down's Big Show would be in Stanford, Monday, May 12.

The Amalgamated Association determined to increase its defense fund from \$25,000 to \$100,000, and to be prepared for a year's strike, if one should again occur.

W. S. Walker, of the Palot Lick section, met with a painful and almost fatal accident on last Tuesday. In some way his horse fell on him, badly bruising him, twisting and spraining one of his limbs, and causing a serious wrench which was at first supposed to be a fracture. The accident was the more unfortunate as Miss Eliza Lusk's marriage was to occur there the following day.

Miss Mary Thompson left last night to attend the State C. E. convention at Cincinnati. Mrs. J. H. Simpson has returned from a visit to Middleburg.

Mrs. Hugh Hemphill, of Nicholasville, is with her brother, W. A. Arnold, who continues ill.

NO LOSS OF TIME.

I have sold Chamberlain's Colic, Cholera and Diarrhea Remedy for years, and would rather be out of coffee and sugar than it. I sold five bottles of it yesterday to threshers that could go no farther, and they are at work again this morning.—H. R. PHILLIPS, Plymouth, Oklahoma. As will be seen by the above the threshers were able to keep on with their work without losing a single day's time. You should keep a bottle of this remedy in your house. For sale by Craig & Hooker, Droghda.

The members of the Methodist church, this city, have entered upon the work of raising the money to build a new house with the usual Methodist earnestness and on last Sunday they secured pledges for \$9,400 of the \$12,000 contemplated.—Carlisle Mercury.

Mary had a little lamb,
Likewise a little cow;
She sold them to a butcher man
And has a fortune now.

The question of having a graded school at Palot Lick is being agitated.

Our Prospects.

Lincoln county lies in the central part of the State of Kentucky and is on a line between Bath, Martin, Floyd and Knott counties on the Northeast, and Wayne, Barren and Allen on the Southwest. Before the war, Lincoln county had attracted attention as an oil territory and today this county is coming to the front as one of the promising oil fields of the State.

The county is situated in the foot-hills of the Cumberland range of mountains where the limestone and the sandstone blend. Stanford is the county seat of the county, and Sheriff M. S. Baughman's farms 11 miles from this place.

It is proper to add that this is the only well that has ever been drilled north of the Green and Kentucky river divide in Lincoln county. While the history

Two parties of revenue officers went on a hunt for the same still in Clay county, and Deputy Collector McCoy and three of his men were captured by a posse under Deputy Marshal Thompson. They were released after mutual explanations.

Hell has at last been located. Bore for oil near Gallatin, Tenn., at the depth of 1,010 feet struck a large volume of sulphur water, which was believed at the time to be only an indication of the near proximity of oil. It has since been found that the drill penetrated a vast underground sea of unfathomable depth, the water rising in one night 500 feet, and is now within a few feet of the mouth of the well.

A roaring sound is continuously heard, coming from the unknown depths, and throngs of people are visiting the well. The water is sulphurous and but for the fact that it is ice cold the natives would begin to flee the wrath to come.

—Lexington Democrat. Gallatin is 150 miles south of Danville.

and traditions of this county warrant the belief that oil could be found in paying quantities here, local capital has been too timid to risk the venture and it remained for the Central Oil, Gas & Mining Co. of Lexington, Ky., to bring the possibilities of the field prominently before the people. On the 7th day of April, 1902, this company brought in at a depth of 620 feet a well producing oil at an estimated gravity of 32 degrees and capacity estimated from 15 barrels to 50 barrels daily, produced from a well-defined oil sand 12 feet thick, with 8 feet pay streak, conservatively estimated. In this well oil is now standing 350 feet, by actual measurement. The above are facts. We are not undertaking a "boasting" business. In proof of this we produce the following analysis from the chemist of State College, Lexington:

Specific gravity 32 degrees B. Distillate below 300 F. 18 per cent (gasoline); distillate between 300 and 375 F. 28.5 per cent. (burning oil); distillate above 375 F. 42.5 per cent. (heavy paraffin oil, lubricating oil); solid residue, 10; total, 99 per cent.

The Company has the property and while the larger investors will receive the larger returns, every stockholder will fare alike. The acreage in Lincoln county leased by this com-

pany amounts to 3,000 acres, and the leases are of good life; fully a third of the leases are within a radius of one-half mile of the well. In addition, these leases are, in the main, adjacent and contiguous to the M. S. Baughman farm, on which the well is located. Of these leases a tract of 1421 acres is within 1,052 feet of the well. With an oil well so close, of admitted quality and quantity produced from an oil sand 12 feet thick, the Company confidently asserts that it may reasonably claim to be offering something tangible to the investor, that the possibilities of the company are great and commend themselves to the reader.

The Company's first location will not be further than one mile from the L. & N. railroad, to which the oil, by reason of the lay of the land, will gravitate. The railroad runs immediately through part of the Company's holdings.

H. H. HENNINGER.

Of Wayne County, is a candidate for State Treasurer, subject to the action of the Democratic party.

It will be a deserved compliment to Judge Cantrill and Commonwealth's Attorney Franklin to receive renominations without opposition and reports from the Frankfort district are that they will likely do so. Both of these gentlemen have been severely vilified by the republican assassination press as well as friends of the scoundrels who brought about the death of Gov. Goebel, but it has not swerved them from their line of duty one iota. They are of the kind that threats don't scare nor public opinion move.

SILVER is so low that the expert counterfeiter can make a dollar coin having in it the requisite 412 grains of silver, nine-tenths fine, at a cost of about 40 cents. This is a temptation to fraud too great for the resistance of skillful rascals. They palter with conscience by insisting that they make as good coins as the government, selling their product for government prices and charging nothing at all for their labor.

CONGRESSMAN BOREING should read up a little. His statement in the House that "the Eighth district has a record for lawlessness far surpassing the 11th," is too thin to be seriously considered. The Parson-Statesman should keep himself posted on the doings in his home counties while he is in Washington making laws and studying how he can defeat Hon. Ed Parker and Col. Colson.

IN nine years plucky Mark Twain has paid the last cent of a debt of \$100,000 and purchased a \$50,000 home besides. He was 69 years of age when he commenced the work of honor. Most men at his age would have spent the rest of their lives replying instead of pulling off their coats and rolling up their sleeves.

A PROMINENT Kentucky lawyer has been stricken with paralysis while milking a cow, and a well-known citizen fell dead working the garden. What splendid excuses these fatalities furnish a man who had rather have his wife attend to the cow and vegetables.

FOR a prohibition State, Maine seems to hold her own with her less fortunate sisters. The latest printed report shows that there are in the State 1,191 liquor dealers, 15 wholesale dealers, two rectifiers, five breweries, 200 retail dealers and 29 wholesale dealers.

LOUISVILLE is to have another republican paper. Looks like the Post, Commercial and News ought to suffice the needs of that city. However, if Lexington can support two republican dailies, Louisville ought to do pretty well by four.

KENTUCKY can no longer boast of the youngest governor in the U. S. Wm. McCroskey, Washington's new executive, is only 28. Kentucky still claims the distinction of having the best governor in the union, however.

THE editorial rooms of the Chicago Tribune are to be 17 stories above the level of the street. If the old business continues good here that won't be a patching to the I. J. building in a few years.

JOHN S. RHEA says he is again a candidate for Congress in the Third. We predict the democrats of that district will select a better democrat than their standard bearer. We hope so, at least.

THE Adair News, a first-rate democratic newspaper, offers to take subscriptions at 10c for three months. It is indeed a bargain; in fact we thought the paper too cheap at \$1 per year.

In Memory of Girdle Cash.

Death is sad under almost all circumstances, but especially so when it comes to the young. This is written in memory of one whose life was suddenly cut off in her early youth, as a late frost blasts the early budding plant ere it blooms into its promised beauty. Girdle Cash, the 10-year-old daughter of Mr. and Mrs. Henry Cash, was taken sick April 18th and died on the 21st of scarlet fever. She was a sweet, lovable girl, loved by all who knew her; was fond of Bible stories and familiar with much Bible history. Her young life gave promise of development into a genuine, beautiful christian womanhood. She was the light of her home but now dwells in that world where there is no need of the sun, neither of the moon, for God and the Lamb are the light thereof. May God bless and sustain her bereaved parents and remind them that "We see but dimly through the mist and vapors."

And these earthly damps What seem to us but sad funeral tapers May be Heaven's distant lamps."

WON'T FOLLOW ADVICE AFTER PAYING FOR IT.

In a recent article a prominent physician says, "It is next to impossible for the physician to get his patients to carry out any prescribed course of hygiene or diet to the smallest extent; he has but one resort left, namely, the drug treatment." When medicines are used for chronic constipation, the most mild and gentle obtainable, such as Chamberlain's Stomach & Liver Tablets, should be employed. Their use is not followed by constipation as they leave the bowels in a natural and healthy condition. For sale by Craig & Hocker, Druggists.

After a long struggle with a complication of troubles, Aunt Clara Singleton, as she was familiarly called by old and young, yielded to the call of the death angel. She was one of the oldest citizens of our vicinity and was well known and honored by all. Until recently her mind had been much impaired, but for some time previous to her death, she was possessed of her reasoning faculties and expressed herself as being prepared for the summons but did not want to die. Quite a large gathering witnessed her burial in the cemetery, where Bro. White made a few appropriate remarks and all that was mortal was laid away to await the resurrection, when we trust "Aunt Clara" will stand amid the splendor of rainbows on the shores of glory.

GOLDEN WEALTH

Produced by Lincoln County, Ky., Soil.

THE GREEN RIVER DEVELOPMENT CO. has commenced operations on the Dr. Morris farm, one mile from the Baughman well, running day and night. A big well is expected. The Baughman well has been estimated by expert oil men, who saw it bailed, to be good for at least 100 barrels per day, and of high gravity illuminating oil. Wells of this character are far more valuable than a gusher. All of our holdings have been carefully selected and we confidently expect some big wells in near future. We now offer a limited number of shares for sale at 40c a share; the par value is \$1.00 a share, fully paid and non-assessable. Buy to-day—don't delay—when we get a big well this stock will be advanced and probably withdrawn from the market without notice. 25 shares is the smallest block the company will issue. Remit by certified check or postoffice money order, or call on or address S. P. Gray, General Manager, Crab Orchard, Ky., or W. S. Poutz, Secretary and Treasurer, Bluefield, W. Va.

Beckham has received \$500 from the war department, the first installment of money due the Kentucky troops for service during the Spanish-American war from the time they were mustered into the government service. This will be good news to the boys who volunteered to fight for their country.

THE following telegram was received by Hon. Harvey Helm, secretary of the Lincoln Oil, Gas & Mineral Co., yesterday afternoon: Au Sabie, Mich.: "Reserve 500 shares of Lincoln Oil, Gas & Mineral Co. stock for parties here. E. P. Loud." Mr. Loud is a son of the president of the Central Oil, Gas & Mining Co., of Lexington, which owns the famous Baughman well. Orders for over 200 shares of stock in the above company came by mail yesterday.

PINAFLORE.—The production of Gilbert & Sullivan's Comic Opera, Pinafore, by the Choral Club, on Friday, May 16th, promises to be one of the best entertainments, either amateur or professional, that has been given in Danville for some time. The chorus has been in the hands of Mr. R. O. Cunningham for several months, and under his direction their work has been developed until they sing with the spirit and finish of professionals. The characters of the cast will all be in able hands.

IN DEMAND.—J. W. Casteel, in jail here for safe-keeping, seems to be wanted at many places. He was sent here from Laurel county, charged with forgery, and a letter received by Marshal Jones Tuesday from Granite, O. T., states that he is wanted there on a similar charge. C. D. Rober, who is cashier of a bank at Granite, writes that Casteel is also wanted by the Commercial Bank at Eureka Springs, Ark., and by the authorities at Madrid, I. T. The letter states that Casteel is a dangerous man and the writer thinks that he should be doing time in some penitentiary. Another letter written from Wagoner, I. T., by P. W. King, states that the writer of it honored a draft for Casteel which proved to be "cold." Mr. King adds that Casteel swindled different parties in his section for sums aggregating fully \$800. He refers to Casteel as a preacher and says he held a revival in Arkansas, where he is charged with beating the brethren out of a hundred or so. This is pretty tough on Casteel, but as he has recently professed religion and was baptized by Rev. J. W. Haglin Sunday before last, we trust he will be forgiven for his sins by both God and man and that henceforth he will lead a different life. Certainly there is room for improvement.

"OTHER men have labored and ye have entered into their labors," will be Rev. J. W. Haglin's subject at the Christian church Sunday morning. There will be no services in the evening.

OLD MEAT.—Mrs. Margaret Hobbs, of Lancaster, who was here yesterday returning from a trip to Cumberland Gap, showed an f. j. representative a piece of bacon 40 years old. It had been kept in a pit and looked as if it would eat pretty good in these days of high-priced meats.

MERSON.—Mr. John B. Mershon tells us that an uncle of his, who had the same name, died in Pendleton county a few days since, leaving a wife and child. Mr. Mershon went through both the Mexican and civil wars, was wounded four times, and in a fight in Stanford between the two wars he was shot through and through by a man named Saddler. He was a splendid man, Mr. Mershon informs us, as brave as Julius Caesar and the hardest working man in his county.

H. Traylor was transferred to Traylor & Rice and four extra police were named for circus day. An ordinance was passed prohibiting fast driving and training broke horses on the streets which will be published later. To the Telephone Subscribers and the General Public.

The Stanford Telephone Company has for several years past been furnishing telephone service to the citizens of this town and county; and it has always been our effort to render to the general public a service that would be satisfactory, and through the agency of representatives who would be courteous and competent; and who, by their conduct and good service would emphasize to the public the fact of the company's appreciation of the patronage extended.

This policy of good treatment will be continued in the future, and the determination of the company to always furnish the best possible will be emphasized by the continued attention to new improvements and new lines reaching more and more out into the country until every citizen of the county will have an opportunity of putting himself in touch with the system by means of our lines and telephones.

We have just arranged with the Hustonville exchange for a free later-

Ignorance

Blows out the gas and furnishes the newspapers with a jest and an obituary notice. "Didn't know it was loaded" may be an honest plea, but it never brought a victim back to life. Those who let a cough run on, in ignorance of the danger, find no escape from the consequences when the cough develops into lung trouble. The best time to kill a snake is in the egg. The best time to cure a cough is when it starts. Ordinarily a few doses of Dr. Pierce's Golden Medical Discovery will cure a cough at the beginning. But even when the cough is deep-seated, the lungs bleed and the body is wasted by emaciation, Dr. Pierce's Golden Medical Discovery will in ninety-eight cases out of every hundred effect a perfect and permanent cure.

"My husband had been coughing for years and people frankly told me that he would go into consumption," writes Mrs. John Sherman, of No. 25 1/2th Place, Chicago, Ill. "He had such terrible coughing spells we not only grew much alarmed but looked for the bursting of a blood-vessel or a hemorrhage at most any time. After three days' coughing he was too weak to cross the room. The doctor did him no good. I started the case in a drugstore, and he handed me a bottle of Dr. Pierce's Golden Medical Discovery. My husband's recovery was remarkable. In three days after he began using Dr. Pierce's Golden Medical Discovery he was up and around, and in two more days he went to work. Two bottles cured him."

The Common Sense Medical Adviser, 1008 pages, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

change of service to bona fide subscribers. This really adds a great many telephones to the list.

In conclusion we have to say that if others operating with inferior instruments and using cheap apparatus, and by the way, cheap lines, desire to compete with us, we will not, during such competition, consider at all the question of the cost to us of rendering service to you; but we will do whatever may be necessary to protect our interests; and it will, therefore, be to your advantage to refuse to let yourselves up in any long-time, arbitrary, binding contracts to any one, but leave yourselves free to take advantage of the very best offer that may be made from time to time.

Our property can not be converted or transferred, and we will, therefore, protect it as far as possible where it stands.

Thanking you for past patronage, and soliciting its continuance, and assuring you that we are in for the war, we are, Yours truly,

Further evidence of the existence of a beef trust is found in the statements of the Kansas City butchers that each Saturday night prices are fixed by the packers, governing the Monday morning market.

Ten thousand cattle remained unsold in the pens at the Chicago Stockyards Wednesday night, the result of the packers declaring they would suspend buying until the people again began eating meat. The price on cattle dropped 15 to 25 cents on the hundred weight. Angry shippers charged that they were victims of a conspiracy, and the packers do not deny that they planned a slump in the markets.

Lexington Business College All Right Again.

There was a tremendous demonstration in the assembly room of Lexington Business College Tuesday afternoon, when it was announced by President Jones that the college had surmounted its temporary embarrassment and would go ahead as usual. The students received the announcement with applause and the friends of the college every where will be glad to know that this is the case. It will be recalled that the college had assigned but it appears that this movement was only temporary and made to adjust some difference between one of the majority stockholders and a creditor who held the stock as collateral. The college did not discontinue its work a single day, and while the announcement that the college had assigned created a flutter among those interested in it, it is reported that it is now in better condition as a school than ever before. Our readers, some of whom are patrons, will so doubt be glad to know that nothing of a serious nature has occurred and that the children will be able to forge right ahead. Yours truly, OREA A. FRITH, a student.

The Georgetown Times says that "the president and manager of a Louisville investment company which went into the hands of a receiver has shipped out. The assets of the concern were 11 cents in copiers and a bottle of whiskey."

Major Parker reported to the war department good army camps at Harrod's Creek, West Point and Ashland.

Modern Drug Dealing.

The elements that enter into perfect drug service are, we believe, these: Competency, quality, courteousness and a fair profit policy. We endeavor to give all these the fullest expression. While in some things there is legitimate need of varying qualities, in medicinal drugs there is not. We handle one grade only—the highest—yet our prices are apt to be less than inferior are sold for.
